EXISTING RIGHT-OF-WAY AND MONUMENT SETTING CERTIFICATION

I, Jeffrey C. Thompson have conducted a survey of the existing conditions for the Ohio Department of Transportation on May, 2007. The results of the survey are contained herein.

Underground utility locations are shown for informational purposes only. Though they are believed to be accurate, their location is marked on the ground by the utility company per OUPS Confirmation Number (Not Available) and those markings subsequently being surveyed as a part of this project.

The horizontal coordinates expressed herein are based on the Ohio State Plane Coordinates system, South Zone by ties to the ODOT CORS network using stations LEBA. No Project Adjustment Factor available. The coordinates found in the plan are grid coordinates.

As a part of this project I have established the locations of the existing property lines and the existing centerline of Right of Way for property takes contained herein.

As a part of this work monuments will be set at the proposed Property Corners.

All of my work contained herein was conducted in accordance with Ohio Administrative Code 4733.37 commonly known as "A Minimum Standards for Boundary Surveys in the State of Ohio" unless so noted.

The words I and my, as used herein are to mean either myself or someone working under my direct supervision.
