This trail is functional, an important connector between Rombach Avenue and the future Citywide trails system to the east, north and west sides of town. The best thing about this trail is that you can walk from Denver Williams Park to Generations Pizza, Staples or Lowe's. CCTC hopes that Denver addition and the neighborhoods along Prairie will soon be connected to this trail via a paved surface trail. Many pedestrians walk on Prairie Avenue to reach this trail but they should use extreme caution when doing so as there is no shoulder on Prairie Avenue.
