Thoughts and Ideas

Census Viewer

Intelligent Transportation System
What’s Next?

● Review and acceptance of our updated orthophotography.

● Distribution plan for photography.

● Create printed “books” of photography for review in Map Office.

● Frequent updating of our GIS Web Page.

● Creation of an Intelligent Transportation System
What’s Next Continued:

- Complete conversion of all of our Tax Maps to a Digital format.
- Scanning of all of our property survey’s.
- Linking of property data to extraneous data sets, such as surveys and deeds.
- Scanning and rectifying of Flood Zone maps.
- Conversion of our Zoning data.
Summary

You Don’t have to be a wizard to build a GIS Program…

But it Does Help!
Where to Get More Information
