In honor of National Geography Awareness Week and GIS Day, the Clinton County GIS Department will be hosting TWO One-Hour Long Seminars / Question Answer Sessions on November 9th at Books-n-More from 5:30 to 6:30 and November 13th at the Wilmington Public Library, basement meeting room, from 5:30 to 6:30.

Please Plan to Attend!!

You Are Invited to attend a GIS Seminar & Question and Answer Session!

Using the Auditor's Office Web Page, we will show you how to navigate and search for property information online.

How do I get a map online?

Live viewing of what information is available on this web page & how do users get to it.

GIS Department Web Page

This is your opportunity to get your questions answered and have an opportunity to see these web pages (& MORE!) used live.

GIS Day & National Geography Awareness Week

Come with Questions!

Opportunities

GIS Department

Located at Books-n-More

28 W Main Street

Wilmington, OH 45177

Time: 5:30 to 6:30

Date: 11/09/2006

Located at Wilmington Public Library

Date: 11/13/2006

Time: 5:30 to 6:30
GIS Data Availability

Due to the tireless efforts of the County Auditors Office and the County Engineers Office, we now have a lot of data available. While it is always advisable to go to one of our web pages for information, you can easily get CD's of things such as surveys, and aerial photography. If you give our GIS Office a few days' leeway, you can get practically any map we have in a PDF format, which is viewable with the Adobe Acrobat Reader. We even have the ability to create geointelligent PDF files, which, with a free downloadable extension to the Adobe reader, allows users to selectively display data layers on a map and do some searching. Please see the list of things we have available to the right.

- Years 2000 black & white & year 2005 color photography
- Property surveys dating back to the mid 1800's; we have more than 12,000 scanned surveys available.
- Census maps from the year 2000
- Deed Reference reports
- USGS Quad Maps
- Precinct maps
- Hundreds of archived Tax maps / Property Maps dating back to the mid 1900's up thru the year 2005, for the villages, City of Wilmington, and each township.
- Flood Plain Maps - FEMA / FIRM map sheets
- Zoning Maps
- Railroad Right Of Way locations
- Fire Districts mapped
- National Wetlands Inventory map
- Plus more!!

One Stop Shopping

For many years, the phrase “One Stop Shopping” has proliferated through local, state, and federal government agencies. What does one stop shopping mean exactly? Currently, when anyone needs information on a piece of property, they generally go (or are steered) to the County Engineer’s Tax Map Office. There, they ask one of the employees for help on locating information that could include a property deed, a survey, a tax map, an address, an owner's name, etc. The county personnel could then have to go to the Recorders Office, or to the Auditor’s Office, using up to three different isolated computers and up to 4 different programs or applications. One of the goals of a GIS implementation is to minimize the amount of travel that county employees and the public have to do to obtain property related information. Applications developed by the GIS Department (including a GIS Web Page) will greatly enhance the ability of our county offices and agencies to serve the public.
