  - Building and Zoning Department
  - City Engineers Office
  - Emergency Management Agency
  - Realtors Association
  - Soil and Water Conservation District
  - Health Department
  - County Bar Association

# Steps to Building a Successful GIS Program

# Steps to Building a Successful GIS Program

- Create an Identity – and **KEEP IT!**

# Steps to Building a Successful GIS Program

- Create an Identity – and **KEEP IT!**
  - Form a GIS Committee

# Steps to Building a Successful GIS Program

- Create an Identity – and **KEEP IT!**
  - Form a GIS Committee
  - Decide on a Logo for the newly formed GIS Department

# Steps to Building a Successful GIS Program

- Create an Identity – and **KEEP IT!**
  - Form a GIS Committee
  - Decide on a Logo for the newly formed GIS Department
  - Come up with an ACRONYM to describe your program.

# Steps to Building a Successful GIS Program

- Create an Identity – and **KEEP IT!**
  - Form a GIS Committee
  - Decide on a Logo for the newly formed GIS Department
  - Come up with an ACRONYM to describe your program.
  - Understand the difference between a *Project* and a *Program*

# Project vs. Program

# Project vs. Program

- Project

# Project vs. Program

- Project
  - Implies a beginning and an ending.

# Project vs. Program

- Project
  - Implies a beginning and an ending.
  - It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.

# Project vs. Program

- Project
  - Implies a beginning and an ending.
  - It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.
  - PROJECT = TASK.

# Project vs. Program

- Project
  - Implies a beginning and an ending.
  - It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.
  - PROJECT = TASK.
- Program

# Project vs. Program

- Project
  - Implies a beginning and an ending.
  - It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.
  - PROJECT = TASK.
- Program
  - Beginning with no solid ending.

# Project vs. Program

- Project
  - Implies a beginning and an ending.
  - It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.
  - PROJECT = TASK.
- Program
  - Beginning with no solid ending.
  - Easier for people to understand that the word program involves the COOPERATION of many.

# Project vs. Program

- Project

- Implies a beginning and an ending.
- It is difficult to get people to equate the word “Project” with something other than a ONE DEPARTMENT activity or task.
- PROJECT = TASK.

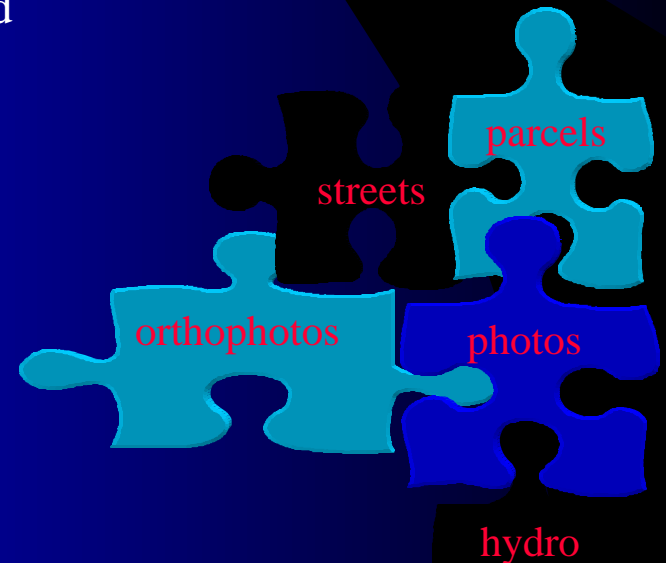

- Program

- Beginning with no solid ending.
- Easier for people to understand that the word program involves the COOPERATION of many.
- PROGRAM = TASK(S).

# Choosing a Consultant

- What do you need to have done, vs. what can you do in-house?
  - Some things are a no-brainer:
    - Aerial Photography
    - Creation of a Permanent Monument Grid
    - Digital Orthophotos
  - Other:
    - Some application development
    - Some data creation / digitization

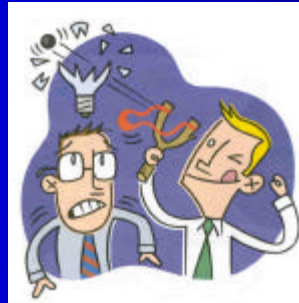

- WHAT'S THE ANSWER?

# There is NO EASY SOLUTION!

## A key ingredient is your GIS staff

- Hire the most experienced GIS Manager you can afford.
- Give that person the freedom they need to be creative in the planning and the *execution* of your GIS plan.
- The knowledge and experience of you GIS Manager ***DIRECTLY*** corresponds to the amount of money you will need to spend on consultant-based activities.

## Keep an Audit Trail of Work in Choosing a Consultant

- You may *(probably will)* be called upon to back up your decision making process.
- Give everyone on your committee an opportunity to be on the *selection team*.
- Prep your selection team to make sure they know what your looking for.
