

The FOGIS Group!

Good afternoon, friends and supporters of GIS in Clinton County.

Edition IV of our monthly updates for 2008 on GIS - News and Events from the GIS Office of Clinton County, Ohio...

First and foremost in the news, we are all crossing our fingers and hoping for good weather to get our 6-inch pixel resolution photography flown sometime in the next week or so. We are looking forward to the official delivery of some products of the statewide aerial photography project later this year.

In other news, I will be speaking at a New Vienna Lions Club meeting later this month on using GIS, and will be presenting a "GIS and Mapping" speech to the agriculture students at Laurel Oaks school tomorrow morning. Take a look at our Publications / Presentations page at:

<http://www.clintoncountyohgis.org/publications.htm#Presentations>

I'm looking forward to participating in the Ohio GIS Conference again this year.

On our LIDAR page, I added a link that illustrates how GIS is used in Archaeological studies.

http://www.clintoncountyohgis.org/LIDARHome.htm#Web_Pages_with_LIDAR_Information

We've made a number of updates to the GIS Web Page this month, including additions to our new User Comments page. Please take a look and e-mail me comments on how you are using GIS so that I can add it to this list. We have some great comments from the editor of the Wilmington News Journal and from the Little Miami Watershed Coordinator...

http://www.clintoncountyohgis.org/user_comments.htm

One of the most popular pages on our web site is the Aerial Photography page.

The newest addition to the old photography is from 1962.

<http://www.clintoncountyohgis.org/ap1962.htm>

If anyone would like a CD / DVD with aerial photography from 1951, 1962, 1968, 2000, 2005, 2007, please let me know. DVD's are ten dollars a piece and CD's are five dollars a piece, and all of the imagery data will be in MrSID file format. I have *just* completed making news sets of the cd's; thanks, for the help I received from the County Engineers Office!

We update some data once a month, such as scanned surveys

<http://www.clintoncountyohgis.org/Surveys.htm>

...and data for download such as parcels and municipalities, from our data downloads page...

http://www.clintoncountyohgis.org/data_availability.htm

There have been some changes to the Auditors Office property research page at:

<http://clintonoh.ddti.net/auditor/PropertySearch/Home.aspx>

For a quick look at what has been updated on the GIS Web Page you can always look at the Web Page Updates-page at:

http://clintoncountyohgis.org/web_page_updates.htm

Be on the lookout for..

- more educational brochures on GIS & using GIS data & applications
- more archived data such as old photography and scanned maps
- 1909 maps of each of the municipalities in Clinton County

...over the next few months.

If anyone has any questions or comments please let me know; enjoy the info!

If there is anyone on this e-mail list that would rather not be, please let me know and I will promptly delete you e-mail address from our lists.
