

The FOGIS Group!

Good morning, friends and supporters of GIS in Clinton County.

Edition V of our monthly updates for 2008 on GIS

News and Events from the GIS Office of Clinton County, Ohio...

Good News! Our 6 inch pixel resolution, 100 scale aerial photography was flown and we should expect delivery sometime in late August. Please take a look at

<http://www.clintoncountyohgis.org/ArchivedAerialPhotography.htm>

...click on 2008 to see the latest news and some samples. More examples will be made available soon. We are still working steadily on making many years of aerial photography available, so stay tuned!

We had a great turnout at the New Vienna Lions Club meeting where I presented a brief show-and-tell on our GIS Program. Attendance was great, and a lot of interest was generated in our mapping programs. Take a look at the presentation slides below:

<http://www.clintoncountyohgis.org/publications.htm#Presentations>

I'm looking forward to participating in the Ohio GIS Conference again this year, but prior to that, this June, on the 30th, I will be speaking on using Google Earth & GIS Data. We will be hosting the Outreach Forum Meeting from OGRIP (Ohio Geographically Referenced Information Program). We are expecting upwards of 20 people or so to visit Wilmington on that day for the presentation. For details, stay tuned at:

http://www.clintoncountyohgis.org/outreach_meeting.htm

I will be posting samples of data translated to Google Earth over the next several weeks.

More Good News! We are expecting some preliminary maps on updated flood plain data sometime in late summer. I know that this will be of great interest to a lot of people, and we are greatly looking forward to the completion of that project.

We have a few new additions to the GIS Web Page, including scanned VMS maps that show the locations of older surveys, i.e. book 9 and below. There is also some general information on VMS (Virginia Military Surveys). Each township will have a set of scanned, colored maps here...

<http://www.clintoncountyohgis.org/surveysvmsref.htm>

We also have sets of maps for the Cowan Lake and Caesar Creek areas, some with a Google Earth translations!

All of the old maps you find on the web page are part of an overall project to make old maps from various departments that are otherwise difficult to find, available and viewable to anyone.

For a quick look at what has been updated on the GIS Web Page you can always look at the Web Page Updates-page at:

http://clintoncountyohgis.org/web_page_updates.htm

One of the latest maps we've done as a map request has been in support of the Clinton County Skatepark Association. Take a look at this map....

<http://www.clintoncountyohgis.org/Publications/Skatepark%20Jen%208x11%20showing%20wilmington%20insert.pdf>

If anyone has any questions or comments please let me know; enjoy the info!

If there is anyone on this e-mail list that would rather not be, please let me know and I will promptly delete you e-mail address from our lists.
