

Lions Club gets new members, message on mapping

The Wilmington Lions Club inducted four new members at its December meeting. The new members are Jim Bashore, John Patton, Dennis Stanton and Fred Boggess. In the above are Zone Chairman Jay Carey at podium, Lion Pres Gray, Bashore, Lion Eddie Bosier, Patton, Stanton, Lion John R. Philp, Lion Ron Morrison and Boggess.

Pictured at right is Joe Merritt, manager Geographic Information System (GIS) for Clinton County, who spoke to the Lions club about the computer mapping service he is doing in the local area. Lion member and County Engineer Bill Temple introduced Merritt who works closely with the offices of the County Engineer and County Auditor. Merritt has digitalized local maps and created layers so that one may observe a map of flood areas or home addresses or recycling sites or any combination of these or other interests without cluttering the map with unwanted details. Property maps for the entire county will be available in the future.
